

2027

GARMENT GUIDE.

Fabric intelligence for the next collection.

Colour, performance and a closer connection to Istanbul.

THE 2027 EDITION

KNITTED FOR WHAT COMES NEXT.

02

FABRIC OUTLOOK

Choose the garment first.

04

COLOUR DIRECTION

Five shades for S/S 2027.

08

İSTANBUL

Come to our table.

CHOOSE THE GARMENT FIRST.

More than a fabric catalogue: a practical way to choose the right knit, finish and production route for the product you want to make.

APPLICATION STUDY / ILLUSTRATIVE STYLING

01

Better everyday essentials

Softness, consistent hand feel and reliable fit across repeat orders.

02

Comfort beyond the home

Sweatshirts, sets and relaxed silhouettes require intentional weight and shape.

03

Movement meets daily wear

Stretch, recovery and comfort must be designed and verified for actual use.

Engineer the fabric around it.

FOUR DEVELOPMENT DIRECTIONS.

A garment's purpose should shape the construction, fibre blend, finishing path and approval checklist.

01 EVERYDAY SOFT

T-shirts, tanks and core layers built around comfortable repeat wear.

FABRIC DIRECTIONS

Single jersey / interlock

02 COMFORT WEIGHT

Hoodies, sweatshirts and joggers with an intentional inner surface.

FABRIC DIRECTIONS

Two-thread / three-thread knits

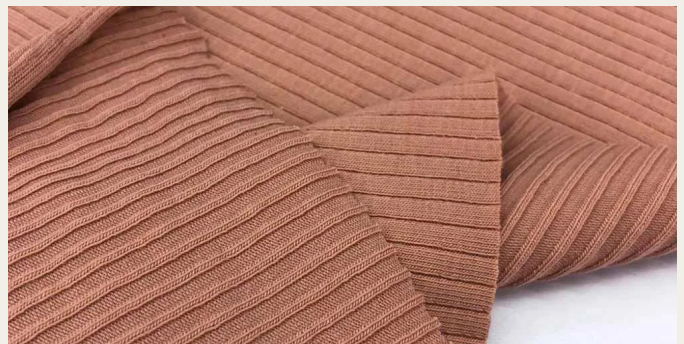

03 REFINED TEXTURE

Polos and smarter casualwear needing a confident, stable surface.

FABRIC DIRECTIONS

Lacoste / piqué / double face

04 MOVEMENT + FORM

Everyday active and structured pieces, where recovery and stability matter.

FABRIC DIRECTIONS

Rib / interlock / scuba

2027, IN COLOUR.

SPRING / SUMMER 2027 · WGSN × COLORO

WGSN and Coloro's S/S 2027 forecast brings expressive colour together with grounded, earthy tones. Luminous Blue, their Colour of the Year 2027, anchors the palette.

01

Luminous Blue

COLORO 125-28-38

A confident focal point for smooth interlock, coordinated jersey separates and sports-inspired colour blocking. Balance with off-white and restrained neutrals.

02

Energy Orange

COLORO 018-57-34

A warm accent for statement T-shirts, contrasting ribs and focused seasonal capsules. Use selectively to give a quieter collection a point of interest.

03

Pop Pink

COLORO 151-73-22

A playful direction for rib tops, soft jersey sets and relaxed everyday pieces. Keep the silhouette clean and uncomplicated.

04

Meadowland Green

COLORO 050-61-19

An earthy direction for textured piqué, everyday jerseys and relaxed separates. Pair with pale neutrals or Clay for a cohesive colour story.

05

Clay

COLORO 014-60-13

A warm, earthy pink for fluid jersey, soft loungewear and tonal layering. Let the fabric handle add as much character as the colour.

FROM PALETTE TO FABRIC

Develop lab dips in the intended fibre blend. Assess the shade alongside texture, weight and finishing.

Source: WGSN × Coloro S/S 2027. Fabric applications are our editorial interpretation. Printed swatches are illustrative; approve production against physical colour standards and lab dips.

ENGINEERED FOR DEMANDING USE.

Advanced technical textile development for military fabrics, workwear, police uniforms, medical textiles, outdoor wear and protective clothing. Each project connects material selection, construction and finishing to the intended use.

01	MILITARY FABRICS	Development for military clothing programmes, with the material and performance brief shaped around the intended field application.
02	WORKWEAR	Fabric development around everyday movement, comfort, durability and the working environment.
03	POLICE UNIFORMS	Uniform fabrics shaped around service requirements, wearer comfort and a consistent professional appearance.
04	MEDICAL TEXTILES	Application-specific development for healthcare clothing and medical textile needs, with hygiene and care requirements defined in the brief.
05	OUTDOOR + PROTECTIVE	Functional textile development for demanding conditions, including flame-retardant fabrics for protective clothing.

FR

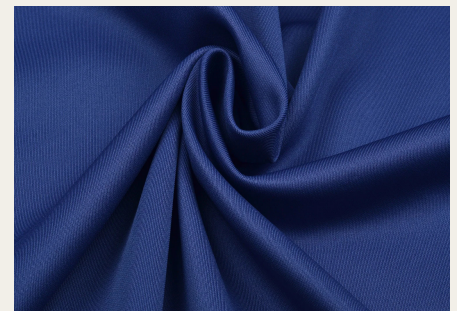

FLAME-RETARDANT DEVELOPMENT

Start with the exposure scenario. Define the fibre and finishing route, care conditions and required performance testing before approval.

Fabric performance, care conditions and testing are agreed for each specific fabric and end use.

APPROVE THE OUTCOME.

Finished fabric should be assessed against the agreed garment brief, not by construction name alone.

SIX CHECKS BEFORE BULK

01 Finished GSM

Weight after dyeing and finishing.

02 Usable width

Width that is actually suitable for cutting.

03 Dimensional stability

Shrinkage, spirality and shape after washing.

04 Colour + surface

Shade consistency, fastness, pilling and hand feel.

05 Stretch + recovery

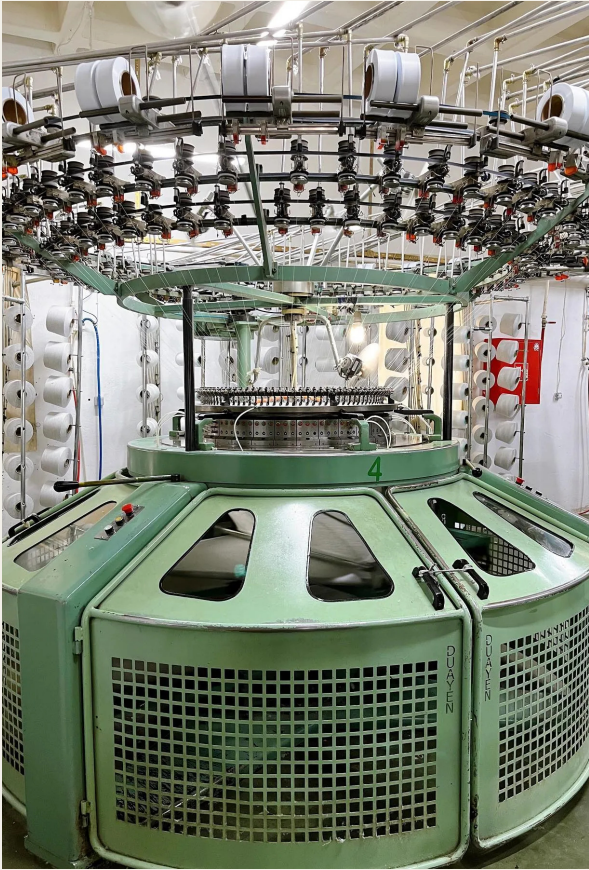

Where the garment's silhouette and use require them.

06 Repeatability

Sample approval, bulk controls and agreed tolerances.

YOUR GARMENT. OUR PROCESS.

We manage development-led production from yarn to cutting-ready material, coordinating the specialist knitting, dyeing and finishing partners around your garment brief.

PRODUCTION ARCHIVE / YUSUF UÇAR

01 YOUR BRIEF

Garment use, hand feel, target weight, width and commercial parameters.

02 SPECIALIST ROUTE

Suitable knitting, dyeing and finishing partners are selected for the product.

03 SAMPLE + APPROVAL

Develop and agree the relevant shade, feel and technical controls.

04 PRODUCTION + DELIVERY

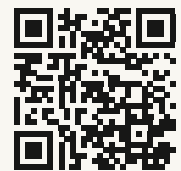

Coordinate the production route and delivery of the approved finished fabric.

START WITH THE FABRIC.

Istanbul, Türkiye

ISTANBUL, AT OUR TABLE.

Come for the fabrics. Stay for the city.

Istanbul is part of the way we welcome our customers. Alongside fabric discussions and development meetings, we accompany you as you discover the city's food culture: market streets, neighbourhood tables and conversations over tea.

01 KARAKÖY & GALATA

Start with simit, cheeses, olives, eggs and tea. Then wander towards Galata and its layered streets.

03 THE BOSPHORUS

Take a ferry and watch the skyline open up. The journey becomes part of the experience.

05 BEYOĞLU

End around a shared table with meze and seasonal Turkish dishes. Leave time for something sweet and conversation.

02 EMİNÖNÜ

Explore the Spice Bazaar and nearby food shops for spices, Turkish coffee, dried fruit and lokum.

04 KADIKÖY MARKET

Follow the food streets past seasonal produce, fishmongers and pickle shops, then settle in for a relaxed lunch.

OUR INVITATION

Bring your next collection to Istanbul.
We will share the city with you.
